Srimanth Adep

Pursuing Data Science at Anurag University | Certified in Python programming | Data Structures and algorithms | Programming in C | Kriya @ Event Management
Hyderabad, Telangana, India

Summary

I am an Event Specialist at KRIYA Passionate Events, where I work with a team of creative and passionate professionals to plan, organize, and execute memorable and impactful events for various clients and audiences. I contribute to the design, marketing, and logistics of the events, ensuring that they meet the clients' expectations and goals. I also leverage my skills in C programming and data structures and algorithms to create and maintain event-related software and databases, enhancing the efficiency and quality of the event management process.

In addition, I am pursuing a Bachelor of Technology degree in Computer Science Engineering - Data Science at Anurag University, where I am learning the fundamentals of AI and ML, and applying them to real-world problems. I am also a Coordinator of Volunteers at NSS UPES, a student-led organization that promotes social service and community engagement among the youth. I am responsible for recruiting, training, and managing volunteers for various projects and initiatives, such as blood donation camps, plantation drives, and awareness campaigns. I am certified in Python programming, which I use to analyze and visualize the data and impact of the NSS activities, and to develop and implement innovative solutions for social problems. I am passionate about using my technical and leadership skills to make a positive difference in the world.
